Mr Halloran has my full attention as a writer..1 of 1 people found the following review helpful. Do you like X-files? Fringe? Supernatural? If so this is a great series for you to read!!By Donmomma KatieWow! Craig Halloran has done it again! I am a huge fan of Craig's and have read most of his books and he never disappoints. I really loved this series. This story and characters were both top-notch. Paranormal Urban Fantasy is not my normal genre but because they were written by Craig I decided to give them a shot. (Yes I like his writing that much!) The title basically gives you an idea of what the books are about. The main characters are Sid and Smoke and are both brave, funny and filled with honor. They both believe in fighting the good fight and have a crew that feels the same. I don't want to give out any details because over 10 books a lot happens but there is all kinds of battles, shooting, fisticuffs, car chases, explosions and all the while you are able to fall in love with the good guys because they are just so well written. :-DIf you like X-files or Fringe this is the series for you. If you like The Walking Dead or Supernatural or even Buffy or Angel you should give these books a shot. They have Werewolves, Vampires, Doppelgangers and so much more! I will guarantee downloading this series will be a move you will not regret. Enjoy!2 of 2 people found the following review helpful. Thoroughly enjoyed reading this series!By Kindle CustomerAbsolutely loved this series, from the first book to the last. It is engaging and always keeps your attention. You keep asking what's going to happen next. Full of action and suspense. Once you start reading book 1, you have no choice but to read them all. It's so bittersweet to see the series end.... but I'm hoping for more down the road anyway. Smoke and Sid and the gang are some of my favorite characters. The vilians are just as heinous as our good guys are just. Overall, this is one of my favorite series.

Where there's Smoke, there's hellfire... Bounty Hunter John Smoke never liked the rules. As a result of his overly aggressive--and often illegal--arrest methods, he ended up behind bars. But the Bureau won't let him be. Placed in the able care of beautiful, tough-as-nails Sidney Shaw, his new FBI handler, Smoke needs to alter his loose-cannon ways to remain a free man. But there is an unchecked evil festering deep in the heart of the nation's capital, a shadow conspiracy that won't be defeated with a by-the-book approach to law enforcement. A vast, hidden network of

criminals with the terrifying ability to shapeshift into monsters is spreading its supernatural sickness into the very fabric of human society. No ordinary mortal can fight it. But there's nothing ordinary about John Smoke, which Sidney Shaw is about to discover as she follows Smoke's trail into the darkest, most secret corners of Washington, DC. Because now the clock is ticking...and the fate of humankind itself may be at stake. Together, her and Smoke, go after another villainous fiend on the Black Slate. Mont

"Smoke is like Jack Reacher with a warped sense of humor. Loved all the characters, even the bad guys!" er
